:: HOW TO MAKE YOUR JOLLY ROGER JACK-O-LANTERN ::

Step 1:

Have an adult help you make a lid for your pumpkin. Cut a circle or a hexagon at least 5 inches in diameter around the pumpkin's stem.

Make sure to cut out the lid at an angle (so that the outside edge is larger than the inside) to keep it from slipping inside.

Step 2:

Once the lid is cut, scrape the inside of the pumpkin and the lid clean of seeds and pulp with a large metal spoon.

Step 3:

Ask an adult to help you cut out your stencil along the dotted lines. Be sure to save the eyes and nose.

Step 4:

Tape your stencil to the pumpkin, then tape the eyes and nose into place. Trace around the inside edge of the template with your marker, then trace around the eyes and nose. Remove the stencil and tape.

Step 5:

Ask an adult to help you use a cutting tool to scrape away and remove the outermost skin of pumpkin (about 1/4 inch deep) inside the outline of your skull and crossbones shape. Do not cut out the eyes and nose!

Step 6:

Place an LED candle inside your pumpkin, put on the lid, turn out the lights and enjoy the spooky glow of your Jolly Roger Jack-O-Lantern!
